

Unilevel Plan MLM Software

Unilevel plan offers an unlimited width plan, permitting one sponsor to own several distributors on a single line. There is usually no spill-over as everyone sponsored by you is on your frontline. This plan is mainly common among the beginners and part-timers because it is the easiest and simplest one among all MLM plans.

How Does the Unilevel Plan Work?

The title tends to make users think that the Unilevel MLM plan is a one-level plan. This is not entirely true as it involves two to any number of decided levels in depth. In Unilevel MLM plan, a user can add members to unlimited level. The sponsor gets a dividend from the business volume of every member in his down-line.

The Unilevel MLM plan has some advantages that make it an MLM plan every MLM organization wants to subscribe to. It is very easy to understand and operate since its calculations are less complicated. With an unlimited width plan, the Unilevel MLM plan allows a sponsor to have several distributors under him while allowing the distributors to further have several other sub-distributors.

Compensations in Unilevel MLM Software

The following three types of compensations are used in Hybrid MLM's Unilevel plan which make the team active and expand the unilevel structure.

1. Sponsor Bonus

Just like every other MLM plan, the sponsor bonus is given to encourage sponsors or distributors to recruit members into their downline in order to promote business. This bonus is earned when a sponsor recruits new members.

2. Fast Start Bonus

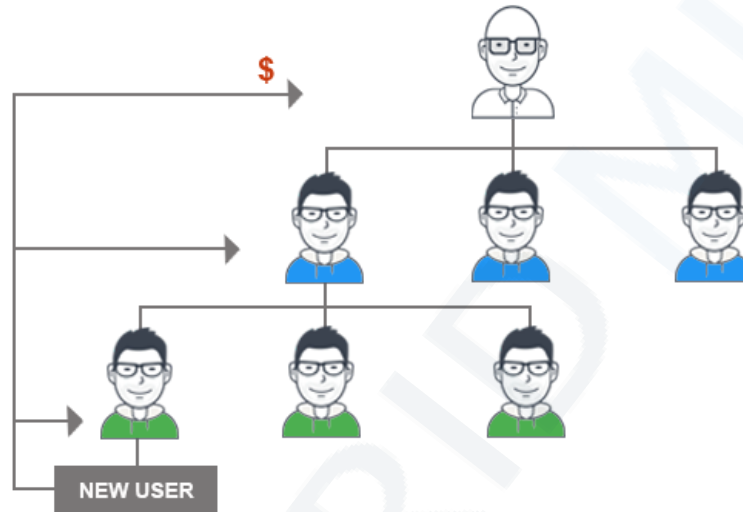

The fast start bonus is earned when a sponsor or distributor achieves a specific target within a particular time period. The fast start bonus is regarded as the starter benefit to newly recruited members. The essence of the fast start bonus is to ensure a higher sales commission on the first new sales of new recruits, and so, it is paid per new recruits.

In order to boost sales, some companies organise sales campaigns, setting sales targets and once these sales targets are reached, the distributors enjoy the achievement bonuses. Company rules and policies may make the fast start bonus to vary between companies.

3. Level Commissions

This is earned when down level distributors achieve sales. The Unilevel plan has unlimited direct downlines in the first level with each downline member possibly having unlimited downlines under them. Members can earn unlimited commissions from sales till nth level.

Advantages of Unilevel Plan

- The Unilevel MLM plan is easily understandable and simple to start so it is easy to describe to the newcomers.
- Due to the fact that this plan has only one level for each user, it is always easy for the user to manage it.
- The unlimited width of this plan lets the user add unlimited members to his/her line. That results in earning more money for the user.
- It is easy to implement unilevel plan in any MLM business because of its simple structure.
- Users can achieve bonuses quickly because of the unilevel structure.
